

Oral Presentations – Timing

The sessions are 90 minutes. It takes about 5 minutes to get started with the first introduction by the moderator leaving 85 minutes. At the end, 10 minutes are reserved for questions and answers with all three presenters. That leaves 75 minutes, divided by 3 presenters or a maximum of 25 minutes per each. If there are only 2 presenters in 90 minutes, then the presenters get a bit over 35 minutes each.
