Statement of Goals for Office

I want to thank you for the opportunity to be considered for the ACCI Board of Directors, it is an honor. My goals are to serve the needs of the current membership, while highlighting the benefits of the organization to attract new members. Since networking with colleagues across the discipline is such an important member benefit, I will encourage all members to make meaningful connections among ACCI members. As an Extension Specialist, I believe research in our field should have implications for policymakers, practitioners, and consumers. I will highlight the research to show how it can have real, lasting impacts on those we serve.
